Handedness	Not specified

Brain Health Assessment Results

Based on your QEEG analysis, here are your brain health parameters scored from 0-3, where higher scores indicate better performance.

1) Cognition

[scoring system score is 2 / 3]

Cognition bucket !' Medium

2) Stress

[scoring system score is 1 / 3]

Stress bucket !' Low

3) Focus & Attention

[scoring system score is 2 / 3]

Focus & Attention bucket !' Medium

4) Burnout & Fatigue

[scoring system score is 0 / 3]

Burnout & Fatigue bucket !' Low

5) Emotional Regulation

[scoring system score is 2 / 3]

Emotional Regulation bucket !' Medium

6) Learning

[scoring system score is 1 / 3]

Learning bucket !' Low

7) Creativity

[scoring system score is 1 / 3]

Creativity bucket !' Low

Brain-Type Pattern:

Cognition M · Stress L · Focus & Attention M · Burnout & Fatigue L · Emotional Regulation M · Learning L · Creativity L

Your Brain Type Classification

Type 1

Relaxed and Balanced Brain

Overall Score

9/21

Your brain shows healthy alpha activity and balanced regulation. You likely experience good mood stability, calm focus, and effective stress management.

Key Characteristics

- High alpha peak frequency (> 10 Hz)
- Good alpha/beta ratio (relaxation capability)
- Low arousal score (< 1)
- Balanced frontal asymmetry
- Good theta/beta ratio (< 1.5)

Personalized Recommendations

> Nootropics:

Rhodiola Rosea, L-Theanine, Ashwagandha

= Supplements:

Omega-3 Fatty Acids, Vitamin B Complex, Magnesium

> Practices:

Diaphragmatic Breathing, Box Breathing, Mindfulness Meditation

These recommendations are for informational purposes only. Please consult qualified healthcare professionals before starting any new regimen.
