Brain Health Assessment Results

Based on your QEEG analysis, here are your brain health parameters scored from 0-3, where higher scores indicate better performance.

1) Cognition

[scoring system score is 1 / 3]

Cognition bucket !' Low

2) Stress

[scoring system score is 0 / 3]

Stress bucket !' Low

3) Focus & Attention

[scoring system score is 1 / 3]

Focus & Attention bucket !' Low

4) Burnout & Fatigue

[scoring system score is 0 / 3]

Burnout & Fatigue bucket !' Low

5) Emotional Regulation

[scoring system score is 0 / 3]

Emotional Regulation bucket !' Low

6) Learning

[scoring system score is 1 / 3]

Learning bucket !' Low

7) Creativity

[scoring system score is 1 / 3]

Creativity bucket !' Low

Brain-Type Pattern:

Cognition L · Stress L · Focus & Attention L · Burnout & Fatigue L · Emotional Regulation L · Learning L · Creativity L

Your Brain Type Classification

Type 4

Attention Regulation Challenges

Overall Score
4/21

Your brain shows elevated theta/beta ratio suggesting attention regulation challenges. Focus on improving concentration and reducing distractibility.

Key Characteristics

- Elevated theta/beta ratio (> 2.0)
- Excessive frontal theta
- Variable beta activity
- Possible alpha/theta imbalance

Personalized Recommendations

🧠 Nootropics:

L-Tyrosine, Caffeine, Rhodiola Rosea

🥗 Supplements:

Omega-3 (high EPA), Zinc, Iron

🧘 Practices:

Box Breathing, Alternate Nasal Breathing, Focused Attention Meditation
